Federal and Ohio law prohibits Cincinnati Public Schools from publicly releasing information about our students, except for designated "directory information." CPS limits "directory information" to a student's name, participation in officially recognized activities and sports, and awards received. Acceptable Use Policy and Internet/Network Safety Agreement

Statement of Purpose

The purpose of providing Internet and network access in schools is to support the District's educational objectives.

Terms of Agreement

In order for a student to be allowed access to a school computer system, computer network, and the Internet, parents and students must sign and return the attached consent form.

Rules for Internet/Network Usage

The District is providing access to its school computer systems, computer networks, and the Internet for **educational purposes only**. If you have any doubt about whether a contemplated activity is educational, you should consult with the person(s) designated by the school to help you decide. Use of the computer network and Internet is a privilege, not a right. A user who violates this agreement shall, at a minimum, have his or her access to the network and Internet terminated and is subject to disciplinary action by the school administrator. The District may also take other disciplinary actions. Accordingly, regulations for participation by anyone on the Internet/network shall include but not be limited to the following:

Student Safety/Education

Cyber-bullying

Cyber-bullying may be defined as a situation when a person is repeatedly tormented, threatened, harassed, humiliated, embarrassed or otherwise targeted using text messaging, email, instant messaging, posting text or images, by means of electronic technology. **Any cyber-bullying, harassment, or intimidation is strictly prohibited.** If a student is found to have engaged in cyber-bullying, disciplinary action will be taken. If a student believes he/she is the victim of cyber-bullying, it is important to not respond to the cyber-bullying. Instead, the situation should be reported to an adult staff member, such as a teacher, principal, etc. Additionally, students are encouraged to notify school staff if they suspect another student is being victimized.

Social Networks/Chat Rooms

- Do not ever post personal information, such as full name, social security number, address, telephone number, bank or credit card number, etc.

- Do not ever agree to meet in person someone you've met on a social networking site or chat room.

Basic Internet/Network Etiquette & Safety Rules

- Teachers may allow individual students to use email, electronic chat rooms, instant messaging, social networking sites and other forms of direct electronic communications for **educational purposes only** and with proper supervision.
- **Student Photos/Student Work** - Publishing student pictures and work on websites promotes learning, collaboration and provides an opportunity to share the achievements of students. Images and products of K-12 students may be included on the website without identifying captions or names. Parents/guardians must indicate their written consent to publish their child's photo or school work on any school related website before the item is published to the web. Please note that under no circumstances will K-12 student photos or work be identified with first and last name on district, school, or teacher websites.
- **Privacy** - Network and Internet access is provided as a tool for your education. The District reserves the right to monitor, inspect, copy, review and store at any time and without prior notice any and all usage of the computer network and Internet access and any and all information transmitted or received in connection with such usage. All such information files shall be and remain the property of the District, and no user shall have any expectation of privacy regarding such materials.
- **Copyright** - All students and faculty must adhere to the copyright laws of the United States (P.L. 94-553) and the Congressional Guidelines that delineate it regarding software, authorship, and copying information. Disciplinary action may be taken.
- Use of the Internet/network for any illegal activity is prohibited. Illegal activities include (a) tampering with computer hardware, software or data, (b) unauthorized entry into computers and files (hacking/cracking), (c) knowledgeable vandalism or destruction of equipment, and (d) deletion of computer files. Such activity is considered a crime under state and federal law.
