

## Vocabulary List– Seventh Grade

1. absolute value
2. algebraic expression
3. box-and-whisker plot
4. composite shape
5. conjecture
6. convert
7. formula
8. interquartile range
9. inverse operations
10. irrational numbers
11. measures of center
12. measures of spread
13. negative exponent
14. nonlinear relationship
15. non-repeating decimals
16. non-terminating decimals
17. perspective
18. powers of 10
19. Pythagorean Theorem
20. quartile
21. repeating decimal
22. rotation symmetry
23. sample selection
24. scale factor
25. scientific notation
26. simplify
27. square roots
28. stem-and-leaf plots
29. subset
30. terminating decimals
