Website Update

Presented by Angela Robinson

Committee Members are Angela Robinson, Samantha Gewe-Perkins, Lcinds Hurst and Acacia Moraes Diniz.

The exploration of improving the website began last year and ADA compliance was just one of the concerns regarding our current website. The website is not searchable, and feedback is consistent that the website is not at all user friendly. The option being explored would be user friendly, easily updated and be less expensive on a year-to-year basis.

Committee would like feedback from board members. Mockup of website here:
